## FAFERLESS RECGRIEFI

Long Term Record Data Saving 3years in Compact Flash
(III oase of usiny 512MB: Compaci Flash)
Selvel Deis playback
Saved data in Memory card can be easily called out and pleyed is.ak oundisplay

Dath and ivialkeijun
These functions are available as standard.

Bommunjortion
RS485, MODBUS RTU protocol is available. (option)
Etiomet (IOBase-T) is available. (option)
Scricen saver
Period of non-operation exceeds the setting value of parameter, recorder turns off the backlight of LCD.

PC support softyares (Data Viewer/Parameter Loaider) Supplied in a CD-ROM as a part of standard accessory

Bompact size
160 (W) X 144 (H) X 185 (D) mm (Panel mount) 1.5 kg compact size
9-point recordjag and 18 -point max. recording
12 types of thermocouples, 5 types of resistance bulbs and voliage/ current input are available

## Provides flexibility and variety in the handling of record data.

## Status Display

Allows you to display screen name, calendar, alarm information, recording status, writing status of measured data in Compact Flash, and fitting status of the card into the recorder slot.

Time alisplay
Indicates the time and time scale of recorded data.
Irend Display
Allows you to view measured result in waveforms.
Digital Display
Allows you to view measured values in a digital form. Key panel
Allows you to perform the recording start/stop, selection of display, setting, data display/change.

## Power indicator

During power on, LED turns on
While screen saver is working, it flickers.

## Mathematics function (programming formula) as standard

You can program formula using below operand.
Addition, Subtraction, Multiplication, Division Absolute value, X to the power of Y , Logarithm, Natural logarithm, Exponential function, Humidity, Average value, Maximum value, Minimum value.

## Communication

- RS485, MODBUS RTU protocol is available. Communication rate is 9600 or 19200 bps and multi-drop/ up to 32 recorders connectable including master station. Total extension is 500 m or less.
- Ethernet (10Base-T) is available. It has FTP, HTTP (Web server), SMTP and MODBUS-TCP protocols.

## Galculation function offered as standard

## Subtraction

Difference between the values of each channel can be calculated.

## F value calculation

Extinction rate of bacteria by heat sterilization can be calculated per channel according to the measured temperature.

## Totalization

Measured value of each channel can be totalized.
Reference time can be selected from day, hour, minute and second.
Square root extraction
Square root extraction of the input value of each channel can be performed.

## Wide variety of display mode

Trend recording (horizontal)
Measured result is horizontally displayed in real time.

Bar graph
Measured values are displayed in bar graph.

## Digital display

Channel No., Tag No. engineering unit, and alarm information are displayed in digital form, in addition to measured values.

Trend recording (vertical)
Measured result is vertically displayed in real time.

Analog meter
Measured values are displayed in analog meters.

## Totalized data display

Totalized data of each channel is digitally displayed. (If power failure occurs while in totalizing operation and the power is restored later, the data being totalized is cleared.)

Historical trend display
Past data saved to Compact Flash can be viewed. Scroll function is usable.

Event summary display
Alarm status and external control input status for each channel are displayed.

| General specifications |  | Recording method | Writing starts in fixed cycles by turning ON the REC key on the front panel. <br> Data is recorded in a new file every time the recording starts. |
| :---: | :---: | :---: | :---: |
| Mounting method | Panel flush mounted |  |  |
| Material | Molding resin (case, bezel) |  |  |
| External dimensions and mass | <Panel mount> |  |  |
|  | $160 \times 144 \times 185 \mathrm{~mm}$, about 1.5 kg (9-point input) | Data save cycles | Links to refreshment cycle of the trend display |
| Power supply voltage | 100 V to $240 \mathrm{~V} \mathrm{AC}, 50 / 60 \mathrm{~Hz}$ | Data format | -ASCII About 166 bytes per sampling <br> (at 9 channel inputs) <br> -Binary (Data cannot be read directly into Excel, etc.) <br> About 40 bytes per 1 sampling (9-channel input) |
| Power consumption | About 47VA (at 200VAC) |  |  |
| External terminals | Screw terminals (M3 thread) |  |  |
| Operate temperature | 0 to $50^{\circ} \mathrm{C}$ (in case the 12th digits of code symbols is " $Y$ " or " $R$ ".) |  |  |
|  | 0 to $40^{\circ} \mathrm{C}$ (in case the 12 th digits of code symbol is " E " or " W ".) | Trend data | Maximum value and minimum value are saved from the data that are sampled in measuring cycles. |
| Input unit |  |  |  |
| No. of inputs | 9 or 18 points | Event data | Alarm data and message data are saved. |
| Measuring cycles | $100 \mathrm{~ms} / 9,18$ points | Totalized data | Stores data totalized during specified period of time. |
| Recording cycle | 1 sec to 12hours |  |  |
| Input signal | Thermocouple: 12 types <br> (B, R, S, K, E, J, T, N, W, L, U, PN) <br> Resistance bulb: 5 types <br> (Pt100, JPt100, Ni100, Pt50, Cu50) | Storage capacity | -About 1.5 years at display refresh cycle of 30 seconds (ASCII) <br> -About 6 years (Binary) <br> (9-channel recording, 256MB compact flash used) |
|  | DC voltage: <br> ( 0 to $50 \mathrm{mV}, 0$ to $500 \mathrm{mV}, 0$ to 5 V or 1 to 5 V ) <br> DC current: <br> (connecting optional shunt resistor to input terminal) | Amount of memory used | The display unit displays how much the memory card has been used via bar graphs. The recording will stop if the amount of recorded data exceeds the capacity. |
| Input types | Selected from the key panel (the same type should be set for every 2 channels) | Alarm function |  |
|  |  | No. of settings | Up to 4 alarms are settable for each channel. |
| Burn-out function | Equipped with thermocouple and resistance bulb inputs as standard. | Type of alarm Indication | High/Low limits <br> Alarm status is displayed on digital display unit when an alarm occurs. Histories are displayed in the alarm summary. |
|  |  |  |  |
| Calculation function | Primary delay filter, scaling, calculation of difference between channels, $F$ value calculation, totalization, and square root extraction |  |  |
|  |  | Output | 10 points as relay output (option) |
| Mathematics function |  |  | 18 points as open-collector transister output (option) |
| Formula | It can be set 1 main formula and 3 temporary one. Addition, Subtraction, Multiplication, Division Absolute value, X to the power of Y , Logarithm, Natural logarithm, Exponential function, Humidity, Average value, Maximum value, Minimum value. | Reference performance |  |
|  |  | Indication accuracy | $\pm(0.15 \%+1$ digit) of input range <br> Accuracy of the next range is $\pm(0.3 \%+1$ digit). <br> Thermocouple B: $400^{\circ} \mathrm{C}$ to 600 C , thermocouples <br> $R$ and $\mathrm{S}: 0^{\circ} \mathrm{C}$ to $300^{\circ} \mathrm{C}$, thermocouples $\mathrm{K}, \mathrm{E}, \mathrm{J}, \mathrm{T}$, <br> L, and U: $-200^{\circ} \mathrm{C}$ to $-100^{\circ} \mathrm{C}$ |
| Input signal | DI (D11 to DI10), Totalize (ch1 to ch30), Analog input (ch1 to ch30), Constant (No. 1 to No.20), Communication input (No. 1 to No.12) | Indication resolution | 0.1C |
|  |  | Reference junction | $\pm 0.5 \mathrm{C}$ |
|  |  | Compensation accuracy | Thermocouples R, S, B and W: $\pm 1.0^{\circ} \mathrm{C}$ |
| Display unit |  | Input resistance About $1 \mathrm{M} \Omega$Others |  |
| Display | 5.7" TFT color LCD ( $320 \times 240$ dots) (The LCD may have some pixels that do not stay on or off. Due to the characteristics of liquid crystal, the brightness may not be uniform, which is not a failure.) |  |  |  |
|  |  | Clock <br> Memory backup | With calendar function |
|  |  |  | Parameter settings are saved to the internal nonvolatile memory. The clock is backed up by a built-in lithium battery. Trend data is back up only 400 samplings. |
| Life of backlight | 50,000 hours |  |  |
| Display contents | -Trend display <br> (in vertical and horizontal direction) selected in the refreshment cycles of 1 sec to 12 hours. <br> Scale display/non-display selectable <br> -Bar graph or analog meter display (refresh cycle: 1 second) <br> -Digital display (in refreshment cycle of 1 sec ) <br> -Event summary display (alarm and message summary) <br> -Historical trend display (Compact Flash memory data.) <br> -Totalized data display <br> -Group setting (4 groups at the maximum) | Memory full alarm | When the amount of recorded data exceeds the capacity of memory card, recorder can energize the alarm output. |
|  |  | Low battery alarm | When the battery for backup of clock and SRAM becomes low, recorder can energize the alarm output. |
|  |  | Optional specifica <br> Alarm (relay) output/DI <br> (Cannot be mounted to 18 -point input type.) | ations |
|  |  |  | 10 relay outputs and 5 DI are added. Alarm output: SPST Output for each channel or common channel is possible. <br> Dl input: 5 no-voltage contact input points, Recording start/stop, message setting, F value caliculation resetting, Totalizing start/stop, |
| Recording function |  |  | Totalizing reset or LCD turning on functions can be performed. |
| Recording medium | Compact Flash card (Format as FAT16 or FAT, or recorder can't read and write.) |  |  |
| Memory capacity | 2GB, max. |  |  |

## Specifications

| Alarm (open-collector) output/DI | 18 open-collector outputs and 5 DI are added as option. <br> Alarm output: Open-collector transister output for each channel or common channel is possible. DI input: 5 no-voltage contact input points, Recording start/stop, message setting, F value caliculation resetting, Totalizing start/stop, Totalizing reset or LCD turning on functions can be performed. | PC support software (standard-supplied CD-ROM) |  |
| :---: | :---: | :---: | :---: |
|  |  | O/S | Windows XP/2000 |
|  |  | PC/AT-compatible machine | Operation on PC98-series machines by NEC is not guaranteed. |
|  |  |  | Operation on self-made or shop-brand PCs is not guaranteed. |
|  |  | Required memory capacity | 64 MB or more |
|  |  | Contents | The following types are included as standard. <br> 1) Data viewer software <br> It allows you to view the past trend recorded data from the data saved to the Compact Flash on PC. Historical trend and event display functions are provided. |
| Communication (RS485, MODBUS) | Baudrate/parity: 9600, 19200bps/none, odd or even Length/Unit: 500m (total) /32units max (include master) <br> Recommanded converter: K3SC-10/Omron Corp. |  |  |
| Communication | 10Base-T |  |  |
| (Ethernet) | FTP server * (Internet Explorer 6. FFFTP or |  | 2) Parameter loader software |
|  | Comand Prompt are available) |  | It allows you to perform setting/change of |
|  | HTTP server * (Web server. Internet Explorer 6 is available) |  | various parameters on PC. |
|  | SMTP (e-mail client) |  |  |
|  | MODBUS-TCP |  |  |
|  | * Netscape and Mozilla Firefox are not available |  |  |

## A convenient PC support software package is included as standard

Past data saved to Compact Flash can be viewed on personal computer.

Historical trend data screen

Before use, install PC support software supplied as standard.

- O/S: Windows XP/2000
- Required storage capacity: 64 MB
- Provide PC card adapter separately.

Recomended type: SDAD-38 (SanDisk Co.)
PC/AT-compatible machine

- Operation on PC98-series machines by NEC is not guaranteed.
- Operation on self-made or shop-brand PCs is not guaranteed.

Parameters for the recorder can be easily set and changed from personal computer.

Before use, install PC support software supplied as standard. - O/S: Windows XP/2000

- Required capacity of memory: 64 MB
- A communication cable between recorder and pc is optional. Type: PHZP1801
PC/AT-compatible machine
- Operation on PC98-series machines by NEC is not guaranteed.
- Operation on self-made or shop-brand PCs is not guaranteed.

## Outine Diagram and Panel Gut (Unit: mm)

## Panel mount type

## 9 input points

In the case of 9-point input

Note: When another instrument or a floor surface is under the bottom of this unit, allow a space of 100 mm or larger between them and the bottom of this unit.

## 18 input points

In the case of 18-point input

Note: When another instrument or a floor surface is under the bottom of this unit, allow a space of 100 mm or larger between them and the bottom of this unit.

Panel cutout

## External connection diagram

9-point input.

## Alarm output/ Dl input terminal

Input terminal

Voltage $\begin{aligned} & \text { Thermo. Resistance } \\ & \text { couple } \\ & \text { bulb }\end{aligned} \begin{aligned} & \text { Resistance } \\ & \text { bulb }\end{aligned}$ Thermo- Vouple $\begin{aligned} & \text { Voltage }\end{aligned}$

## Communication, digjital input and alarm output terminal.

18-point input.

## Input terminal

## Communication, digital input and alarm output terminal.

## Code Symbols

Note 1: Cannot be selected if 2 is selected for the forth digit .(the number of input points is 18)
Note 2: Cannot be selected if 1 is selected for the 11 th digit.
Note 3: Alarm outputs are open-collector transister output.
Note 4: Input signals are classified into the following 4 groups. Make the setting so that the consecutive 2 channels (1ch and 2ch for example) are assigned the input signal categorized in the same group.
Group 1: Thermocouple (12 kinds), 50 mV
Group 2: Pt100. JPt100, Ni100, Cu50, Pt50
Group 3: 500 mV
Group 4: 1-5V, 0-5V
Input signals can be arbitrarily selected for channels 9 and 18.

Scope of supply
Item
Main unit
Panel mounting bracket
CD-ROM (PC software, Instruction manual )
Watertight panel packing for the front panel
Noise filter for power cable

## Option

| Item | TyPC | Specifications |
| :--- | :--- | :--- |
| Shunt resistor for DC current input | PHZP0101 | $10 \Omega \pm 0.1 \%$ |
| PC loader communication cable | PHZP1801 | With USB A and USB miniB Connector |
| CD-ROM (Instruction manual and softwares) | PHZP0601 |  |
| Terminating resister | PHZP0701 | 100ohm |
| D-subliht 25pins connector with male terminal | PHZP0801 |  |
| Transmission cable | PHZP0901 | For PHL to PC |
| Transmission cable | PHZP1001 | For PHL to PHL |
| PC card adapter for Compact flash | SDAD-38 | Maker : Sandisk |
| Compact flash (512MB) | PHZP1301-512 |  |
| Compact flash (1GB) | PHZP1301-01G |  |
